

**Opus Asset Management Sdn Bhd partners with Ryt Bank,
and Opus Services Sdn Bhd to Expand Digital Access to
Investment Solutions in Malaysia**

Kuala Lumpur, 28 May 2026 – Opus Asset Management Sdn Bhd (“OpusAM”), a fund management company regulated by the Securities Commission Malaysia, today announced a strategic collaboration with Ryt Bank to deepen the integration of digital banking and investment solutions. Operating under the OpusAsset brand, the firm brings its disciplined fixed income expertise and enhanced “Fixed Income Plus” approach to broaden access to professionally managed investments delivering institutional investment capabilities to Malaysians through a seamless and accessible way to save and invest with confidence.

Siaw Wei Tang, Group Managing Director of OpusAM, said:

“This collaboration represents an important step in making investment solutions more accessible to Malaysians. We are honoured to partner with Ryt Bank and grateful to work together towards a shared vision of financial inclusion. By integrating our offerings within a digital banking environment, we aim to simplify the investment journey and make it easier for more Malaysians to invest with confidence.”

This collaboration reflects a shared commitment by OpusAsset and Ryt Bank to democratise investment access and enable more Malaysians to participate in long-term wealth creation. By combining OpusAsset’s institutional investment expertise with Ryt Bank’s next-generation capabilities as Malaysia’s first AI-powered digital bank, the partnership redefines how individuals engage with their finances.

Through its integration with Ryt Invest, OpusAsset extends its reach to a broader, digitally native audience while lowering traditional barriers to entry. More than just an investment offering, Ryt Invest is about opening access, addressing long-standing perceptions that investing is complex, costly, or disconnected from everyday banking.

At the core of this offering is a suite of three risk-profiled investment solutions, designed to deliver a range of total return outcomes aligned to varying investor needs from capital preservation and income generation, to balanced growth, and higher-growth strategies. This structured approach provides a clearer pathway for Malaysians to invest according to their individual financial goals and risk appetite.

Together, the collaboration brings technology and investment management closer than ever, making it simpler and more accessible for Malaysians to build, grow, and protect their wealth with confidence.

Opus Services Sdn Bhd (“OSSB”) supports the collaboration by enabling secure, real-time processing, operational efficiency, and regulatory compliance, forming the backbone of the integrated digital investment offering. A Malaysia-based provider established in 2020, OSSB delivers specialised IT and financial solutions, including digital platforms, transfer agency, and fund accounting services for asset management firms.
