Principal Investment	The Fund seeks to achieve its objective by investing in liquid fixed income securities,

	The Fund will invest in Malaysian fixed income securities and money market instruments which are issued by corporations and/or financial institutions, and/or issued or guaranteed by the Malaysian government, Bank Negara Malaysia, government-related entities and/or quasi-government related entities.					
	In selecting the instruments for the portfolio of the Fund, we will actively manage the portfolio to provide liquidity to meet the short to medium term cash flow requirement.					
	Except for instruments issued or guaranteed by the Malaysian government, Bank Negara Malaysia, government-related entities and/or quasi-government related entities, we will only invest in instruments or issuers which have a minimum credit rating of at least A3 or P1 by RAM Rating Services Berhad ("RAM") (or equivalent rating by Malaysian Rating Corporation Berhad ("MARC") or by any other reputable credit rating agency) at the point of purchase. In the event of a credit downgrade, we reserve the right to deal with the

Distribution Policy	The Fund intends to distribute income, if any, at lea	ast once a month.				
	The Fund may distribute from realised income, realised gains, unrealised income and/or unrealised gains. The rationale for distributing out of the Fund's capital is to allow the Fund the flexibility to (i) declare distribution in unforeseen circumstances where the Fund has insufficient realised gains and/or realised income to do so, or (ii) increase the amount of distributable income to the Unit Holders, after taking into consideration the risk of distributing out of capital. Distribution out of the Fund's capital has the effect of lowering the NAV of the Fund, may reduce part of the Unit Holders' original investment and may also result in reduced future
